EVERCOAT®

440 EXPRESS™ Micro-Pinhole Eliminator

440Express Micro-Pinhole Eliminator is a quick fix for micro-pinholes that are hard to identify prior to primer application. This 1k patent-pending technology is a high-solids polyester that is easy to apply and quick to dry. 440Express Micro-Pinhole Eliminator will not shrink, therefore preventing the micro-pinholes from showing through the repair after the vehicle has been painted. Testing has shown, when used properly, 440Express will eliminate up to 90% of all rework caused by micro-pinholes. All it takes is 30 seconds to a better repair!

1. Shake 440Express and apply a small amount on the applicator sponge or repair area.

2. Wipe 440Express over the entire repair area. Continue to wipe until all residue of 440Express has been removed.

3. Allow to dry 15 minutes and apply a primer surfacer according to paint manufacturer's recommendations.

Part No.	Description	Size	Units/Case
100439	440Express Applicators	Bag of 12 ea.	6
