HMIS: NFPA: Special Hazard
OSHA Regulatory Status: This material is classified as hazardous under OSHA regulations.
<b>Potential Health Effects</b> This product has not been tested as a whole to determine health effects. The health
(Acute and Chronic): effects listed below are associated with the individual ingredients listed.
INHALATION ACUTE EXPOSURE EFFECTS:
Vapor harmful. High concentrations may lead to central nervous system effects, such as
drowsiness, dizziness, nausea, headaches, fatigue, paralysis and loss of consciousness
and death. High vapor concentrations and mist are irritating to the eyes, nose, throat,
and lungs.
SKIN CONTACT ACUTE EXPOSURE EFFECTS:
Skin irritant. Symptoms may include redness, itching, drying, cracking, and burning of
the skin. Repeated or prolonged skin contact can produce moderate irritation and drying
of the skin. Passage of this material into the body through the skin is possible, and may
Licensed to W.M. Barr and Company: MIRS MSDS, (c) A V Systems, Inc. GHS format

add to the toxic effects from breathing or swallowing.

### EYE CONTACT ACUTE EXPOSURE EFFECTS:

This material is an eye irritant. Symptoms include pain, stinging, watering, redness, and swelling. May cause corneal injury.

### INGESTION ACUTE EXPOSURE EFFECTS:

Poison. Cannot be made non-poisonous.

Ingestion may irritate the mucous membranes of the mouth, throat, and esophagus. It can be readily absorbed by the stomach and intestinal tract. Symptoms include a burning sensation of the mouth and esophagus, nausea, vomiting, dizziness, staggering gait, loss of balance, drowsiness, loss of consciousness, delirium, and other central nervous system effects.

Overexposure to methanol may also cause leg cramps, pain in the abdomen and lower back, blurred vision, shortness of breath, cyanosis (causes blue coloring of the skin and nails from lack of oxygen), visual impairment (including blindness), coma, and death.

There is a danger of aspiration into the lungs during vomiting. Aspiration can result in severe lung damage or death.

### CHRONIC EXPOSURE EFFECTS:

Repeated overexposure to xylene has caused a hearing loss in laboratory animals. Repeated overexposure to xylene has produced toxic effects in developing and young laboratory animals. Prolonged or repeated exposure xylene may cause liver and kidney damage.

Methanol has caused birth defects in laboratory animals, but only when inhaled at extremely high vapor concentrations. The relevance of this finding to humans is uncertain.

Exposure to lethal concentrations of methanol has been shown to cause damage to organs including the liver, kidneys, pancreas, heart, lungs and brain. Although this rarely occurs, survivors of severe intoxication may suffer from permanent neurological damage.

Excessive exposure to 2-butoxyethanol in animals has reported to show effects on the blood (hemolysis) and secondary effects on the kidney and liver. Human red blood cells have been shown to be significantly less sensitive to hemolysis than those of rodent and rabbits. In animal studies, 2-butoxyethanol has been toxic to the fetus and shown effects on reproduction in lab animals as doses toxic to the mother.

Prolonged or repeated exposure to toluene may cause kidney and liver damage.

Reports have associated repeated and prolonged overexposure to solvents with neurological and other physiological damage. Intentional misuse by deliberately concentrating and inhaling solvents may be harmful or fatal.

#### TARGET ORGANS:

Kidneys, liver, lungs, mucous membranes, upper respiratory tract, skin, central nervous system, eye, pancreas, heart, brain.

**Medical Conditions Generally** Diseases of the blood, skin, eyes, liver, kidneys, lungs, nervous system, respiratory **Aggravated By Exposure:** system. May cause disturbances of the heart rhythm.

Note to Physician:       Poison. This product contains methanol.         This product contains methanol which can cause intoxication and central ne depression. Methanol is metabolized to formic acid and formaldehyde. The metabolites can cause metabolic acidosis, visual disturbances and blindnes		c acid and formaldehyde. These		

metabolites can cause metabolic acidosis, visual disturbances and blindness. Since metabolism is required for these toxic symptoms, their onset may be delayed from 6 to 30 hours following ingestion. Ethanol competes for the same metabolic pathway and has been used to prevent methanol metabolism. Ethanol administration is indicated in symptomatic patients or at blood methanol concentrations above 20 ug/dl. Methanol is effectively removed by hemodialysis.

	5. FIRE FIGHTING MEASURES				
	IB				
Flash Pt:	< 20.00 F Method Used: Setaflash Closed Cup (Rapid Setaflash)				
Explosive Limits:	LEL: No data. UEL: No data.				
Autoignition Pt:	No data.				
Suitable Extinguishing Media	a:Use carbon dioxide, dry powder, or foam.				
Fire Fighting Instructions:	Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Storage containers exposed to fire should be kept cool with water spray to prevent pressure build-up. Stay away from heads of containers that have been exposed to intense heat or flame.				
Flammable Properties and Hazards:	Danger! Extremely Flammable! Keep away from heat, sparks, flame, and all other sources of ignition. Vapors may cause flash fire or ignite explosively. Vapors may travel long distances to other areas and rooms away from work site. Do not smoke. Extinguish all flames and pilot lights, and turn off stoves, heaters, electric motors and all other sources of ignition during use and until all vapors are gone. Beware of static electricity that may be generated by synthetic clothing, transfering, and moving of product. Keep away from electrical outlets and switches.				
	6. ACCIDENTAL RELEASE MEASURES				
Steps To Be Taken In Case Material Is Released Or	Vapors may cause flash fire or ignite explosively.				
Spilled:	Clean up: Keep unnecessary people away; isolate hazard area and deny entry. upwind, out of low areas, and ventilate closed spaces before entering. Shut off ig sources; keep flares, smoking or flames out of hazard area. Use non-sparking to Use proper bonding and grounding methods for all equipment and processes. Ke of waterways and bodies of water. Be cautious of vapors collecting in small enclo spaces, sewers, low lying areas, confined spaces, etc.	nition ols. eep out			
	Small spills: Take up with sand, earth or other noncombustible absorbent materia place in a plastic container where applicable.	al and			
	Large spills: Dike far ahead of spill for later disposal.				
	Waste Disposal: Dispose in accordance with applicable local, state and federal regulations.				
	7. HANDLING AND STORAGE				
Precautions To Be Taken in Handling:	Read carefully all cautions and directions on product label before use. Since emp container retains residue, follow all label warnings even after container is empty. Dispose of empty container according to all regulations. Do not reuse this contain				
	Do not use this product near any source of heat or open flame, furnace areas, pilo lights, stoves, etc.	ot			
	Do not use in small enclosed spaces, such as basements and bathrooms. Vapors accumulate and explode if ignited.	s can			
	Do not spread this product over large surface areas because fire and health safet will increase dramatically.	y risks			
Licensed to W.M. Barr and Company:	MIRS MSDS, (c) A V Systems, Inc. GH	S format			

Use only with adequate ventilation to prevent a build up of vapors. If the work area is not well ventilated, do not use this product.

Precautions To Be Taken in Storing:

Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.

	where vapors can accumulate and concentrate, such as basements, bathrooms or small enclosed areas. Whenever possible, use outdoors in an open air area. If using indoors open all windows and doors and maintain a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea or eye-watering STOP ventilation is inadequate. Leave area immediately and move to fresh air. If the work area is not well ventilated, do not use this product.
Work/Hygienic/Maintenance Practices:	A source of clean water should be available in the work area for flushing of the eyes and skin.
	Wash hands thoroughly after use. Do not eat, drink, or smoke in the work area.
	Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use.
	Discard any clothing or other protective equipment that cannot be decontaminated, such as gloves or shoes.
9.	PHYSICAL AND CHEMICAL PROPERTIES
Physical States:	[]Gas [X]Liquid []Solid
Appearance and Odor:	Golden Yellow Transparent Liquid
Melting Point:	No data.
Boiling Point:	103.00 F - 400.00 F
Autoignition Pt:	No data.
Flash Pt:	< 20.00 F Method Used: Setaflash Closed Cup (Rapid Setaflash)
Explosive Limits:	LEL: No data. UEL: No data.
Specific Gravity (Water = 1):	.814825
Density:	6.84 LB/GL
Vapor Pressure (vs. Air or mm Hg):	27 MM HG at 68.0 F
Vapor Density (vs. Air = 1):	> 1
Evaporation Rate:	<1
Solubility in Water:	No data.
Percent Volatile:	99.0 % by weight.
VOC / Volume:	
Stability:	10. STABILITY AND REACTIVITY         Unstable []       Stable [X]
Conditions To Avoid -	No data available.
Instability:	
-	Strong acids, alkalies, and oxidizers. Avoid contact with reactive metals such as aluminum and magnesium.
Hazardous Decomposition O Byproducts:	<b>r</b> Decomposition may produce carbon monoxide and carbon dioxide, oxides of nitrogen, aldehydes, ketones, organic acids, and unidentified organic compounds in black smoke.
Possibility of Hazardous Reactions:	Will occur [ ] Will not occur [ X ]
Licensed to W.M. Barr and Company:	MIRS MSDS, (c) A V Systems, Inc. GHS forma

Conditions To Avoid - Hazardous Reactions:	No data available.
	11. TOXICOLOGICAL INFORMATION
Toxicological Information:	This product has not been tested as a whole. Refer to section 2 for acute and chronic effects. CAS# 67-64-1:
	Standard Draize Test, Eyes, Species: Rabbit, 20.00 MG, Severe. Result:
	Behavioral: Change in motor activity (specific assay). Behavioral: Alteration of classical conditioning.
	- American Journal of Ophthalmology., Ophthalmic Pub. Co., 435 N. Michigan Ave., Suite 1415, Chicago, IL 60611, Vol/p/yr: 29,1363, 1946
	CAS# 1330-20-7: Acute toxicity, LC50, Inhalation, Rat, 5000. PPM, 4 H.
	Result: Behavioral: Muscle contraction or spasticity.
	Lungs, Thorax, or Respiration:Other changes.
	- Raw Material Data Handbook, Vol.1: Organic Solvents, 1974., National Assoc. of Printing Ink Research Institute, Francis McDonald Sinclair Memorial Labor, Lehigh Univ., Bethlehem, PA 18015, Vol/p/yr: 1,123, 1974
	Standard Draize Test, Eyes, Species: Rabbit, 5.000 MG, 24 H, Severe. Result:
	Behavioral: General anesthetic. Behavioral: Somnolence (general depressed activity).
	Behavioral: Irritability. - "Sbornik Vysledku Toxixologickeho Vysetreni Latek A Pripravku,", Institut Pro Vychovu Vedoucicn P, Marhold, J.V., Institut Pro Vychovu Vedoucicn, Pracovniku Chemickeho, Prumyclu Praha Czechoslovakia, Vol/p/yr: -,24, 1972
	CAS# 108-88-3: Reproductive Effects:, TCLo, Inhalation, Rat, 800.0 MG/M3, 6 H, female 14-20 day(s)
	after conception. Result: Effects on Embryo or Fetus: Fetotoxicity (except death, e.g., stunted fetus).
	Effects on Newborn: Behavioral. - Brazilian Journal of Medical and Biological Research., Vol/p/yr: 23,533, 1990
	Standard Draize Test, Eyes, Species: Rabbit, 2.000 MG, 24 H, Severe.
	Result: Effects on Embryo or Fetus: Other effects to embryo. Specific Developmental Abnormalities: Eye, ear.
	- Prehled Prumyslove Toxikologie, Marhold, J., Organicke Latky, Prague Czechoslovakia, Vol/p/yr: -,29, 1986
	CAS# 111-76-2: Acute toxicity, LC50, Inhalation, Rat, 450.0 PPM, 4 H.
	Result:
