

3M™ Finesse-it™ II
Finishing Material – Machine Polish
Part Number 39003/60-4400-9516-8

3M™ Finesse-It™ II Finishing Material Machine Polish was developed to quickly and effectively remove minor scratches, producing a brilliant, deep, “wet look” shine. **For best results use by machine.**

Directions For Use:

Polish imperfections using an air or electric buffer equipped with a 3M™ Wool Polishing Pad. Do not apply in direct sunlight or onto a hot surface.

1. Shake container well before using.
2. Apply enough polish to work a two-foot by two-foot area.
3. Polish area using light to medium pressure. Reduce pressure as material begins to dry and polish to a high gloss.
4. Remove spatter from adjacent panels before polishing the next panel.

To provide a durable long lasting waxed finish on cured paints, follow with an application of 3M™ Perfect-It™ Liquid or Paste Wax PN 39026 or 39526.
