

MEDIUM WAVE PORTABLE INFRARED EQUIPMENT

SRU 1615

SRU 3215

- CURE / DRY FROM INSIDE OUT
- DRY / CURE MOST LIQUID SOLVENT BASED COATINGS
- DRY / CURE MOST LIQUID WATER BASED COATINGS
- DRY CONTACT ADHESIVES
- CURE COMPOSITES
- EVAPORATE WATER
- PREHEAT MOLDS
- SAFE NO UV RADIATION
- UL LISTED

The SRU-1615 is the nation's number one selling infrared curing machine. With 1,500 watts of power and available in 120 or 240 volts. Coverage area is over 2' x 3' ideal for small area repairs. Heavy duty stand adjusts to over 6' high for curing tall objects. A conveniently located On/Off switch and a parabolic reflector for uniform heat distribution. The SRU-3215 is the same great unit as the SRU-1615 except it has two 1500 watt heads for double curing power, over 3' x 4' coverage area with 3000 watts of power. These units are suitable for use with all industrial finishes including adhesives and resins. These Speed-Ray units are energy efficient, only pennies per hour to operate and UL Listed.
