3M™ Accuspray™ System
Spray Gun Model HG14

Spraying Simplified

3M has turned the page on spraying...again! Introducing the HG14 - the next generation in 3M™ Accuspray™ System technology. The HG14 is designed for the application of coatings requiring the use of a 1.4mm atomizing head. This innovative HVLP system produces exceptional results through excellent atomization, resulting in high transfer efficiency with low overspray. Other benefits include increased productivity and efficient cleanup - all combined to improve your bottom line.

Easy as Click and Spray

This revolutionary product allows you to have a brand new spray gun on demand. The innovative technology was designed from the inside out for the efficient and economical application of material. These atomizing heads deliver a large usable pattern, with very low overspray and exceptional atomization.

The innovative replaceable atomizing head allows for the following benefits:

Optimizes Efficiency

- Minimizes overspray
- Simple clean up
- Excellent transfer efficiency with HVLP technology
- Exceptional atomization

Boosts Productivity

- New gun on demand
- Delivers premium application
- Lightweight ergonomic design reduces technician fatigue

Maximizes Benefits of the 3M™ PPS™ System

- Reduces gun cleaning time
- Uses less solvent for clean up
- Decreases hazardous disposal cost
- Improves productivity and profitability

Part No.	Description	Items/Billing Unit	Billing Units/Case
16577	3M™ Accuspray™ Spray Gun Model HG14	1	1
