SET THE PACE
WITH A ONE-STEP SOLUTION

ARE PAINT RUNS, OVERSPRAY, ORANGE PEEL OR DIRT NIBS SLOWING YOU DOWN?

Do you need an easy-to-use, one-step solution for paint finishing?

Introducing the Presta® PACE™ Paint Finishing System.

For a body shop, speed is critical. You need something that provides a quality finish quickly; something that's user friendly and won't leave swirls. You don't have time to go back and do it again because time is money.

PACE is easy to use, reduces inventory, uses less product and eliminates guess work... in one step.
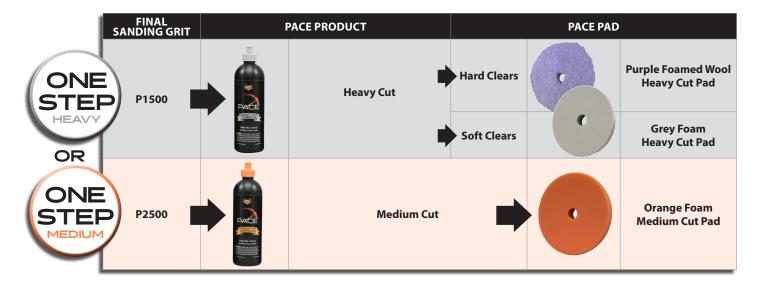

It's not just another compound.

PACE™
PAINT FINISHING SYSTEM

PACE™ Paint Finishing System is a one-step process that's easy to use, reduces inventory, uses less product and eliminates the guess work.

Designed to work with an orbital polisher, PACE allows collision centers to cut P1500 sand scratches and finish without swirls. The great cutting power and polishing action lets you use less sand paper, saving time and money. Coupled with its ease of use, body shops will see cycle times improve … and that means more cars out the door.

The core of the PACE system are the choice of two compounds, an optional polish and an optional glaze to fit your needs. Each PACE compound has its own unique buffing pads calibrated to work on specific types of sand scratches and clears with the Presta-branded FLEX orbital polisher.

Choose your one-step compound:

FINAL SANDING GRIT	PACE PRODUCT		PACE PAD	
ONE STEP HEAVY P1500	Heavy Cut	Hard Clears		Purple Foamed Wool Heavy Cut Pad
		Soft Clears		Grey Foam Heavy Cut Pad
OR **ONE STEP MEDIUM** P2500	Medium Cut			Orange Foam Medium Cut Pad

PACE also offers two optional enhancers to achieve a deep, wet look.

PACE PRODUCT		PACE PAD
	Ultimate Polish	Black Foam Pad
	Protective Glaze	

REDUCE CYCLE TIMES. STUNNING RESULTS. SET THE PACE.
