

**PRO FORM<sup>®</sup>**

# BUCK SHOT

## TRUCK BED PROTECTIVE COATING

Durable two component urethane coating that can be applied to metal, wood and fiberglass. Protects interior truck bed from impact, scratches, stain, salt, rust and corrosion. It bonds directly to paints, primers and flexes with trucks movement. This sprayed coating not only looks great, it protects against a wide range of extreme weather conditions and is U.V. resistant.

*Extends your truck bed's life!*

**3 DO IT YOURSELF IN EASY STEPS**

- Easy to use – simply mix, shake and spray
- Can be sprayed, brushed or rolled on
- Can be put on paint shaker with no gel, froth or bubble problems
- Easy surface preparation – just clean & scuff or prime
- Black or tintable base
- No need to wax after application
- Can be delivered in one hour after application.
- Waterproof, flexible and helps deaden vibrations and sound
- Comes in three kit sizes to satisfy different applications

### ADD ANTI SKID PROPERTIES

with our 22240 Anti Skid Grit

An angular shaped crushed walnut shell that's environmentally safe. Most popular for non skid surfaces.
