

25250 PREMIUM DOUBLE SIDED ACRYLIC FOAM TAPE

DIRECTIONS FOR USE:

1. Remove previous tape from part and vehicle.
2. Clean metal parts with 19000 General Purpose Adhesive Cleaner and clean plastic parts with 19040 Plastic Parts Cleaner. Let dry thoroughly.
3. Apply 16170 Adhesion Promoter to the back side of all body side moldings and all plastic trim prior to tape application. Let dry 2 to 3 minutes. **CAUTION:** Adhesion Promoter will harm paint. Apply Adhesion Promoter and molding tape prior to painting molding.
4. Apply tape to part with the exterior red release liner still attached to the tape. Paint the part if necessary. Remove interior release liner, being careful not to touch or contaminate the surface of the exposed adhesive.
5. Firmly roll down or rub down plastic molded part to vehicle.
